

# 2023 STAAR Preliminary Results

Houston Region Districts Data First Look

# Definitions and Data Sources

- For the purposes of this presentation, achievement reflects the proportion of students meeting or mastering grade level standards on the STAAR test, Texas's statewide standardized assessment administered each spring.
- For our initial analysis, we focused on 3<sup>rd</sup> and 8<sup>th</sup> grade tests in Reading and Math as well as Algebra 1 and English 1 EOC scores.
- Houston districts include those within Good Reason Houston's service area, defined by having at least one campus in Houston and a majority of campuses serving 70%+ Economically Disadvantaged students.
- 2023 Preliminary data was downloaded from TEA's [Data Interaction portal](#), while data for historical comparisons was pulled from TEA's [STAAR Aggregate data portal](#). STAAR Preliminary data will be verified by districts and the State before being released later in the Fall in the Aggregate data portal.
- For this analysis, we filtered results to include STAAR Reading and Math English exams only.

# Key Houston Region Takeaways

- Reading has rebounded since the pandemic, while math recovery has been slower. While most districts improved in 3<sup>rd</sup> grade math since 2022, only Spring Branch ISD has met or exceeded pre-pandemic levels.
- On average, 44% of 3<sup>rd</sup> graders met grade level expectations for reading and 38% met expectations for math.
- Houston districts, on average, saw slight to moderate improvements in 3<sup>rd</sup> grade reading and math. Across Houston, Both Galena Park and Spring ISD had the greatest gains in reading at a 5pp increase. Districts with the largest gains in math include Aldine (+7pp) and Sheldon ISD (+6pp).
- On average, 46% of 8<sup>th</sup> graders met grade level expectations for reading and 33% met expectations for math.
- Middle school performance is mixed, with 8<sup>th</sup> grade reading scores declining and 8<sup>th</sup> grade math scores improving on average. YES Prep is notable in that its 8<sup>th</sup> grade reading scores grew by 11pp while math dropped by 18pp.
- English 1 scores improved across districts. Channelview ISD, Galena Park ISD, and YES Prep all showed double digit gains.
- Algebra 1 scores showed moderate gains or slight declines. Most districts have not recovered to post-pandemic meets/masters rates in Algebra 1, except for Spring Branch ISD

# 2023 Context: STAAR Redesign

# STAAR Redesign

The STAAR test was **redesigned** to make the test more tightly aligned to the classroom experience. The STAAR redesign is a result of House Bill (HB) 3906 passed by the 86th Texas Legislature in 2019. *The redesign was implemented in the state assessments administered in the 2022–2023 school year.*

The STAAR redesign includes several components:

<p><b>Online Testing and Accommodations</b></p>	<ul style="list-style-type: none"> <li>● Online administration allows students to receive accommodations like those they get in the classroom, provides faster test results, improves test operations, and allows new non-multiple-choice questions.</li> <li>● Nearly all students to took the assessment online, with a few exceptions</li> <li>● <i>Pro: Access to results to inform instruction and supports / Con: Need to ensure familiarity with technology</i></li> </ul>
<p><b>New Question Types</b></p>	<ul style="list-style-type: none"> <li>● House Bill 3906 established a “multiple choice cap,” meaning that no more than 75% of points on a STAAR test can be based on multiple choice questions.</li> <li>● Texas educators helped design new question types tp reflect classroom test questions and allow students more ways to show their understanding.</li> <li>● <i>Pro: Increase in rigor and depth of measuring student knowledge and skill / Con: May not align with all students’ current state of instruction and instructional resources</i></li> </ul>
<p><b>Cross-curricular Passages</b></p>	<ul style="list-style-type: none"> <li>● The test includes more cross-curricular informational passages that reference other subject areas</li> <li>● While the cross-curricular passages on reading language arts (RLA) test will include topics from other subject areas, the questions will only assess RLA TEKS</li> <li>● <i>Pro: Opportunity for relevant reading that aligns to students’ cross-curricular interest and learning / Con: May not align with all students’ current state of instruction and instructional resources</i></li> </ul>
<p><b>Evidence-based Writing</b></p>	<ul style="list-style-type: none"> <li>● RLA assessments assess both reading and writing including new question types and an essay at every grade level.</li> <li>● Students will informational, argumentative, or correspondence forms. Writing will be scored using a rubric that assesses idea development and language conventions.</li> <li>● <i>Pro: Opportunity to align application reading with writing / Con: May not align with all students’ current state of instruction and instructional resources</i></li> </ul>

# 3<sup>rd</sup> Grade

# After large gains in 3<sup>rd</sup> grade reading from 2021 to 2022, many Houston region districts showed modest growth in 2023; Houston ISD, Spring ISD, and YES Prep declined slightly.

Percent Meets Grade Level, 3rd Grade Reading 2019-2023

- Most district saw moderate gains in 3<sup>rd</sup> grade reading.
  - Both Galena Park and Spring ISD had the greatest gains of 5pp and are among the districts with greatest gains since 2019.
- Districts that saw declines include Houston ISD (-3pp), YES Prep (-3pp), and Spring ISD (-2pp)

All Houston region districts exceeded pre-pandemic 3<sup>rd</sup> grade reading baselines in 2023, even those whose scores declined from 2022 to 2023.

Percent Meets Grade Level, 3rd Grade Reading 2019 & 2023

# Most Houston region districts showed gains in 3<sup>rd</sup> grade math from 2022 to 2023.

Percent Meets Grade Level, 3rd Grade Math 2019-2023

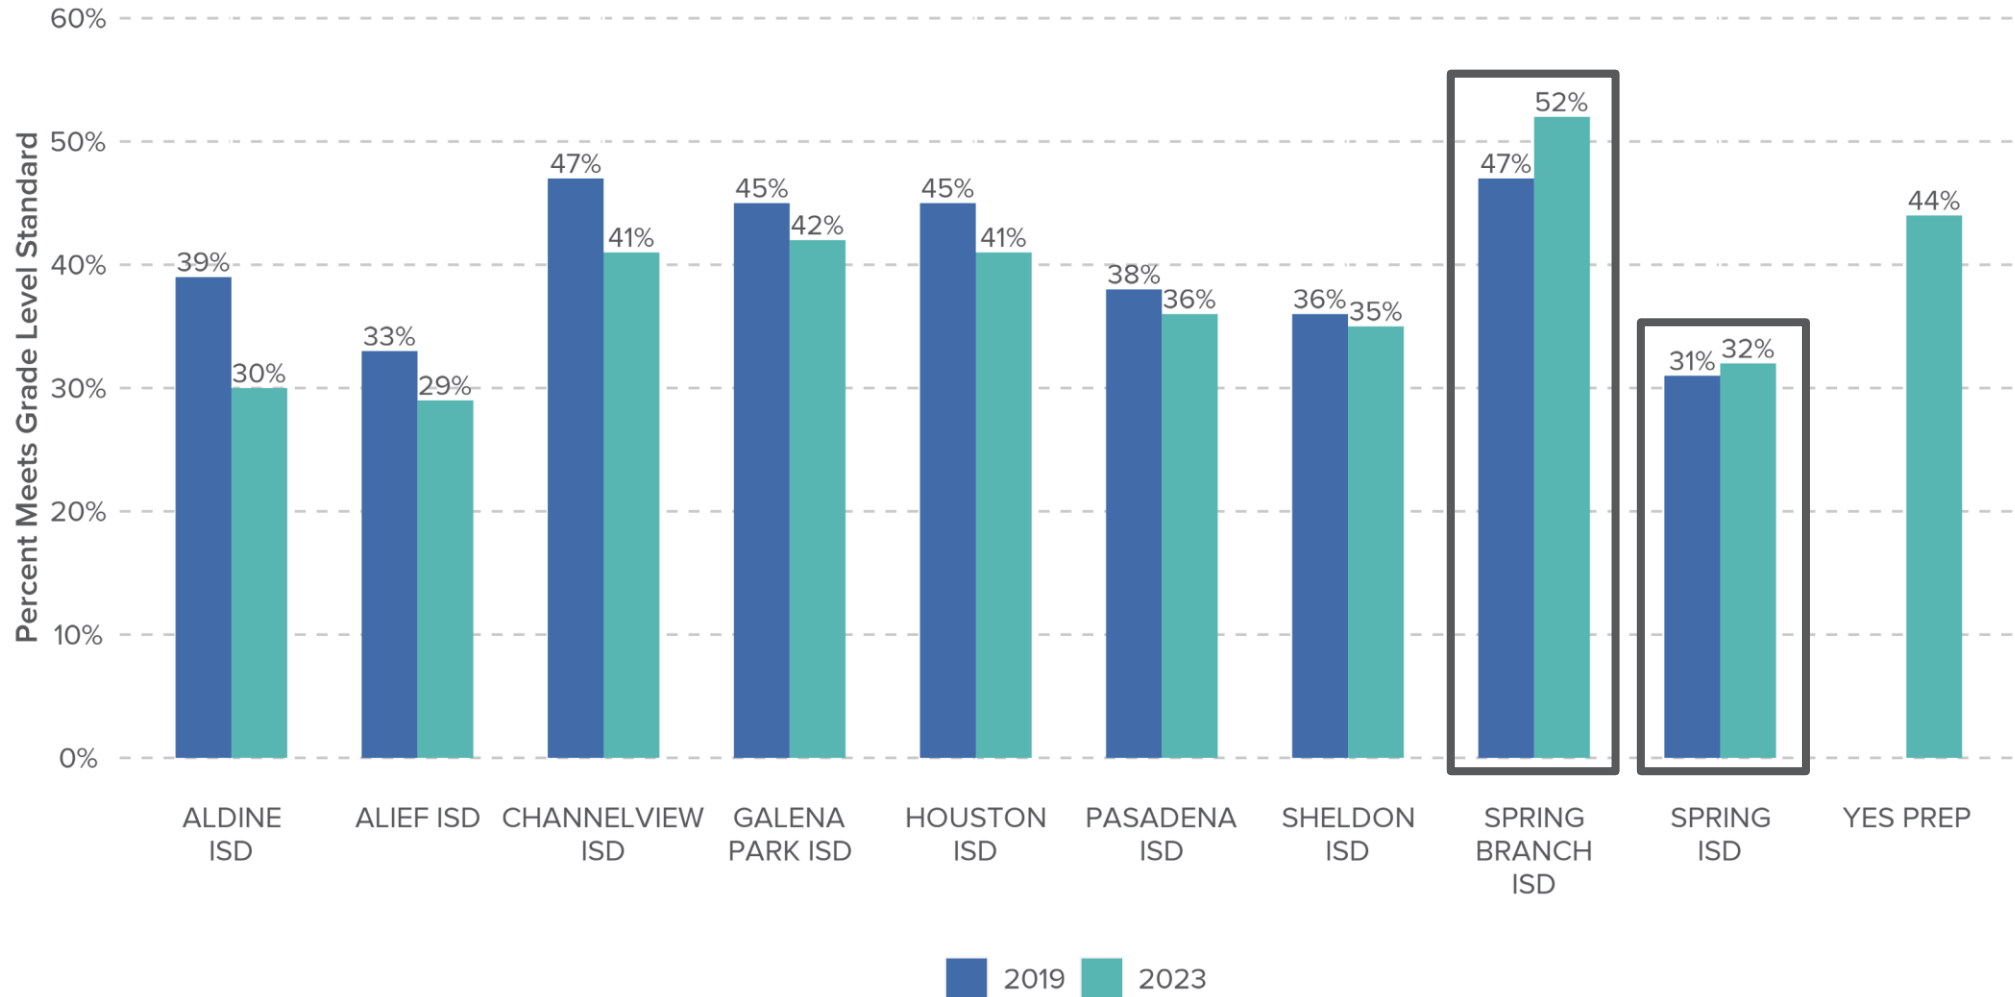

- Districts with the largest gains include Aldine (+7pp) and Sheldon ISD (+6pp).
- Alief saw no change since 2022.
- Note that YES Prep has no data prior due to 2022 since Elementary campuses are recently opened.

Despite the gains in 3<sup>rd</sup> grade math from 2022 to 2023, most Houston region districts have still not yet recovered all pandemic-related declines since 2019. Only Spring and Spring Branch ISDs exceeded 2019 levels in 2023.

Percent Meets Grade Level, 3rd Grade Math 2019 & 2023

# 8<sup>th</sup> Grade

After large gains in 8<sup>th</sup> grade reading from 2021 to 2022, many Houston region districts saw declines or modest gains in 2023; YES Prep is the one district to show substantial growth.

Percent Meets Grade Level, 8th Grade Reading 2019-2023

YES Prep's 8<sup>th</sup> grade reading grew by 11pp since 2022

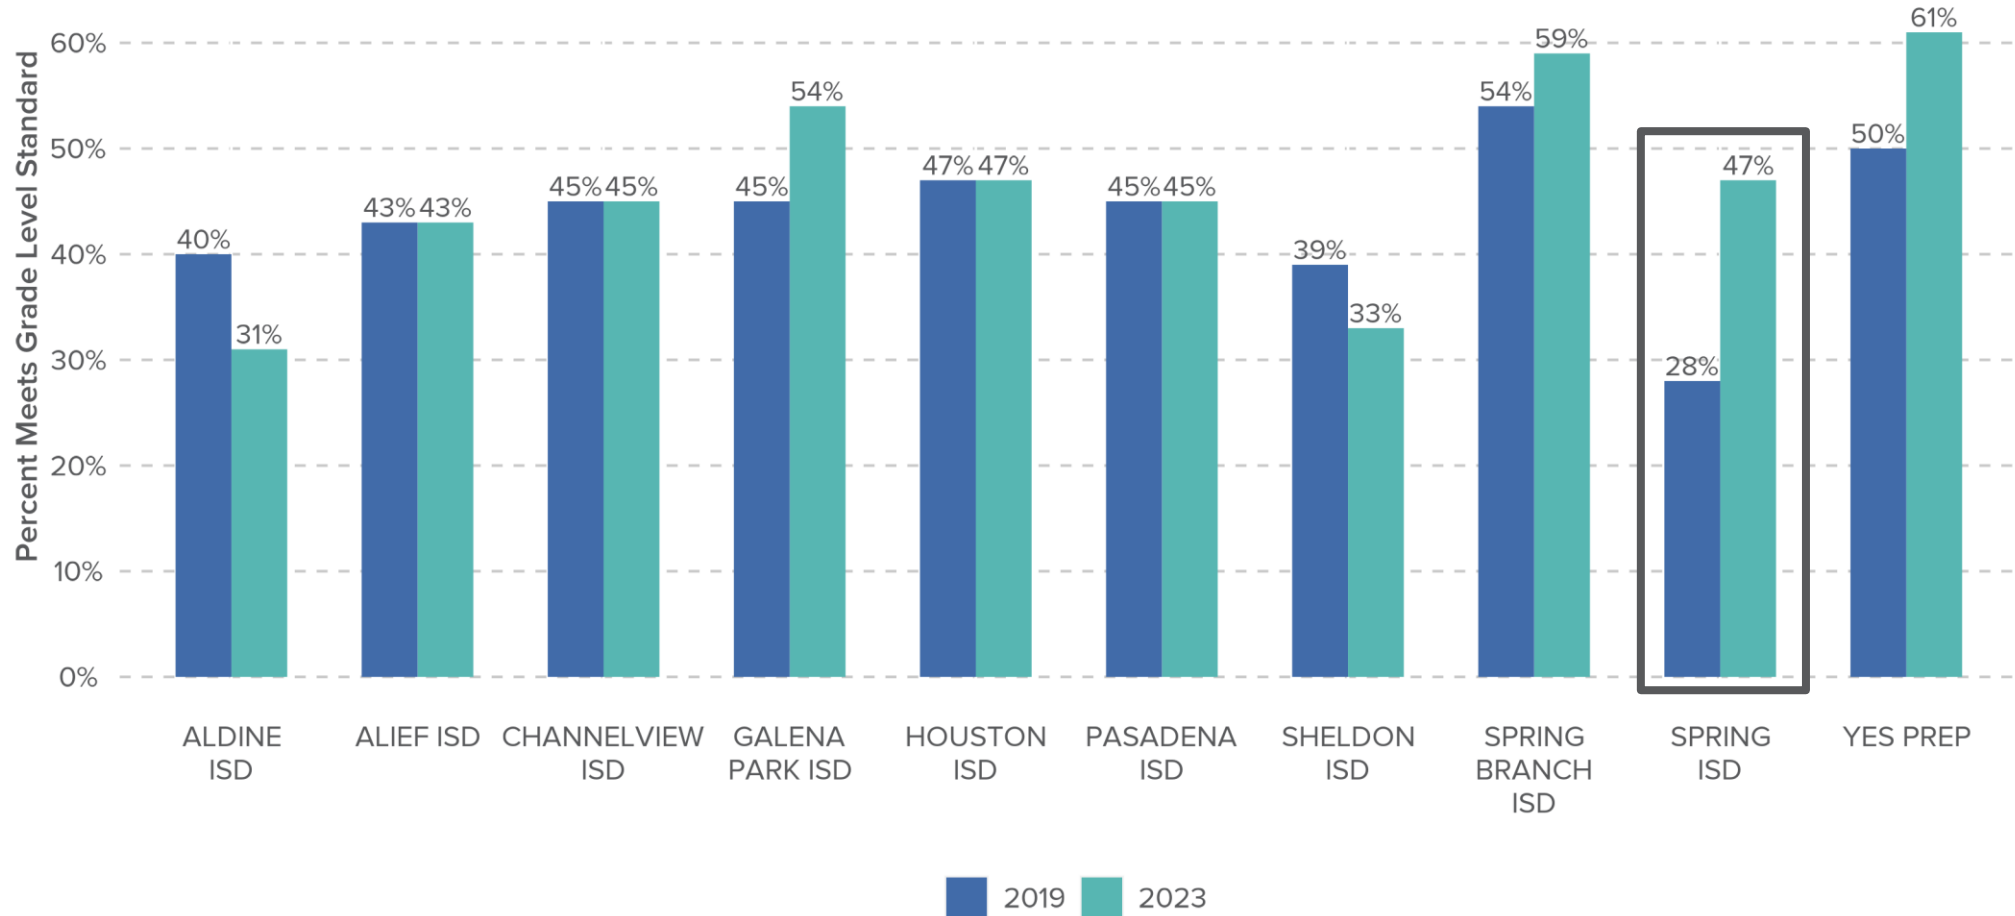

Many districts saw sizeable drops since 2022, including Houston ISD (-8pp), Pasadena ISD (-7pp), and Aldine ISD (-9pp)

# Most Houston region districts have returned to or exceeded pre-pandemic levels in 8<sup>th</sup> grade reading; Spring ISD has shown significant growth since 2019.

Percent Meets Grade Level, 8th Grade Reading 2019 & 2023

# Galena Park, Sheldon, Spring, and Spring Branch ISDs all showed 8+ point gains in 8<sup>th</sup> grade math from 2022 to 2023; YES Prep saw a 15 point drop.

Percent Meets Grade Level, 8th Grade Math 2019-2023

Spring Branch ISD saw a 25pp gain since 2022, and this year's results exceed pre-pandemic levels

YES Prep saw a 15pp drop since 2022, the lowest meets/masters rates since 2019

# Most Houston region districts still have significant work to do to get back to 2019 levels in 8<sup>th</sup> grade math. Only Spring Branch ISD exceeded 2019 levels in 2023.

Percent Meets Grade Level, 8th Grade Math 2019 & 2023

A decorative horizontal line of colored dots in shades of blue, pink, teal, lime green, and orange, extending across the width of the page. The dots are arranged in two rows: the top row is above the text and the bottom row is below it.

# High School End of Course Exams (EOCs)

All Houston region districts showed gains in English 1 EOCs from 2022 to 2023; Channelview ISD, Galena Park ISD, and YES Prep all showed double digit gains.

Percent Meets Grade Level, English 1 EOC 2019-2023

Three districts had notable double digit gains in English 1 EOCs, including Channelview ISD (+10pp), Galena Park ISD (+11pp) and YES Prep (+11pp).

# Most Houston region districts have returned to or exceeded pre-pandemic levels in English 1 EOCs since 2019.

Percent Meets Grade Level, English 1 EOC 2019 & 2023

# Most Houston region districts showed modest gains in Algebra 1 EOCs from 2022 to 2023, while some showed slight declines.

Percent Meets Grade Level, Algebra 1 EOC 2019-2023

- Most districts have not recovered to post-pandemic meets/masters rates in Algebra 1, except for Spring Branch ISD

Despite consistent gains since 2021 for many, among Houston region districts, only Spring Branch ISD has exceeded pre-pandemic levels in 2019 in Algebra 1.

Percent Meets Grade Level, Algebra 1 EOC 2019 & 2023

**HISD Compared to the  
Houston Region and State**

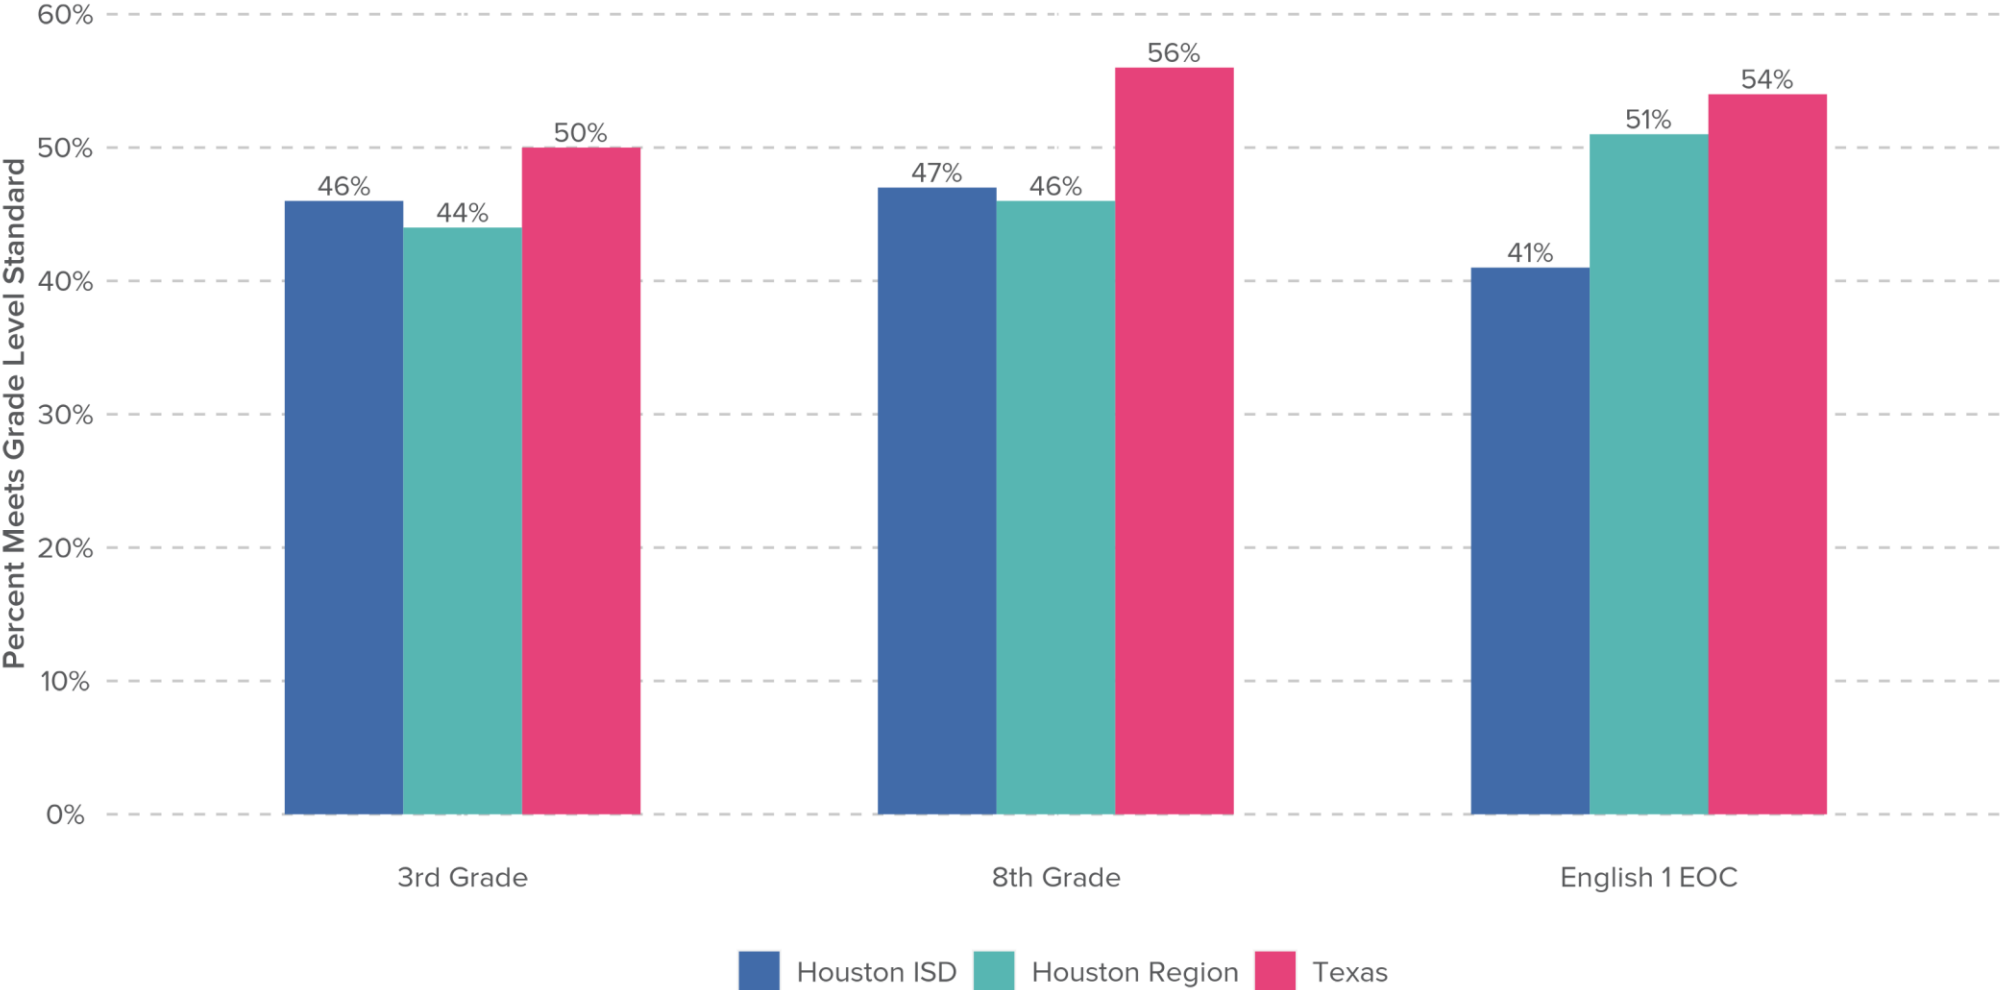

**HISD and the Houston region overall underperformed the state on RLA exams in 2023, but HISD slightly outperformed the region overall on 3<sup>rd</sup> and 8<sup>th</sup> grade reading tests.**

Percent Meets Grade Level, RLA Exams 2023

The Houston region overall outperformed the state on the Algebra 1 EOC but performed significantly worse on 8<sup>th</sup> grade math exams.

Percent Meets Grade Level, Math Exams 2023
